For business

Business Brochure

Spring and summer 2019

Welcome

to the Festive Lights
spring / summer brochure

With 20 years of lighting experience, we've got the knowledge, expertise and product ranges to make sure you've got everything you need to bring every event to light! Over the past two decades, we've polished our products and services to perfection, from tailored quotes to bespoke products, for installations of every size.

We won't settle for anything less than the very best quality and we're constantly expanding and developing our products to stay ahead of the trends, keeping pace with technological advancements in an exciting, ever-evolving industry. Our lighting ranges are well equipped to light up weddings, hotels, corporate events and festivals, to name a few. There is literally no job too big or too small!

We make sure every order is packaged with care and efficiency, offering worldwide and next day delivery options. We keep our 50,000sqft distribution centre packed to the rafters with every product you could ever need (plus a few more for good measure!) to make sure that when you order, we deliver.

Our team is here to guide you, so please don't hesitate to get in touch.

Matt, Jo, Dan, Zoe, Richard

Superior quality lights, recommended by the professionals.

Offering reassuring performance for all commercial displays, this high quality connectable system uses durable rubber cabling and innovative bulb sealing technology. With an IP65 rating and advanced connections, these lights are built to withstand changeable weather conditions, making them perfect for prolonged outdoor use.

about anything, even down to the unique, wing-shaped connectors which make secure tightening a doddle even in wet conditions. The LEDs are glued into specially aligned polycarbonate caps, using epoxy resin, which ensures a reliable and consistent electrical connection and superior protection against moisture ingress.

We've taken extra special care of every detail with these lights, so you don't have to worry

We're always adding new lines to this range, making sure we're ahead of the game with

emerging trends, and meaning your displays never lose their sparkle.

Connectable lights with a difference – you pick the power!

The most versatile range of connectable lights we've ever stocked, the ConnectGo system gives you ultimate flexibility for your lighting display.

At the cutting edge of low voltage, multi-power-source lighting, this system offers you excellent performance, safety and versatility. Including all of our bestselling lighting products, like string lights, festoons and curtain lights, everything in this range can be powered by either solar, battery, or 31V mains power.

The high quality PVC cable ensures durability in all weather and is backed by our market leading, 2 year anti-rust guarantee. All the products in this revolutionary range feature our professionally moulded connections, which are designed with shaped wings for a

reassuringly strong connection. There are six power supplies to choose from, for whatever your display needs, so you can power from 50 to 4,000 LEDs (400 metres), all with multifunction capability.

ConnectGo accessories

Adding even more flexibility to the ConnectGo range, the six different power options mean your lights can be installed literally anywhere. Using mains power, you can run up to 600 LEDs (Small), 1,600 LEDs (Medium), or 4,000 LEDs (Large), all boasting 8 function controllers and an in-built memory chip. If access to mains power is a problem, our battery power pack options are here to save the day; power up to 200 LEDs from the Small or up to 400 LEDs from the Large. Offering the same brightness as mains power, you still get the multifunction and memory capabilities. We've also got the option of a solar panel, powering a maximum of 200 LEDs and featuring both static and twinkle functions.

Flexible, professional, commercial quality festoon lighting.

NOW IP55

The most popular choice for year round event lighting, festoons create show-stopping statement displays in every venue. We designed this universal system to extend up to an impressive 1,500 metres, making sure it adapts to any occasion.

With 100% rubber cable and a robust socket design, the harness is suitable for both temporary and permanent displays. The unique winged connections mean that extending the system is effortless but, more

importantly, make a weathertight seal you can rely on. The harness also features 30cm, 50cm or 100cm socket spacing, and a rounded cable to be more aesthetically pleasing!

We offer a comprehensive range of outdoor bulbs too, with either B22 or E27 fittings. Our range has everything from modern LED G45s with opaque (0.5W) or transparent (1.2W) casings, to the latest vintage LED 'filaments' (4W) with dimmable capability. We've also added our brand new collection of traditional

shape A60 bulbs, which are available in white, warm white, yellow, blue, red and green, perfect for adding a splash of colour to any event.

A full range of accessories integrates seamlessly to make installations more dynamic and to make your life so much easier. The ring connector is definitely the most popular for creating centrepieces and suspended canopies.

- When using 4W bulbs = 375 bulbs (360m)
- When using 15W bulbs = 100 bulbs (100m)

Connecting
Male and female connectors slot together until the rubber seal is reached. Tighten the exterior cap using the wings, ensuring the connection is weatherproof. Our 7A 240V power cable can support up to 1,500 Watts (e.g. 3,000m of linear festoon lighting). The system meets all EU safety standards and RoHS requirements.

Lamp holder
Our lamp holders have been specifically designed to meet IP55 weatherproof standard and feature a durable bulb seal for performance year around. We have incorporated a pair of convenient fixing holes into the lamp which allow permanent or temporary fixing, either onto the side of a soffit or attached to a suspended cable.

Installation guidance:
If suspending without support cable:
Max 20m
If suspending with support cable (every 1m):
Max. 150 sets (3,000m)

Code:
FL010

Code:
FL012

FestoonPro belts / harnesses

With near unlimited uses, our professional festoon harness is most often displayed suspended, such as between lamp posts or fixed directly to buildings - typically to soffits or fascias. Festoons are really popular for dressing town centres, public spaces and large commercial trees, but they're also the go to event lighting for weddings, festivals and theme parks.

If you already have the harness, our range of LED bulbs can be used to quickly personalise and update your display.

CONNECTING: Male and female connectors slot together until the rubber seal is reached. Tighten the exterior cap using the wings, ensuring the connection is weatherproof. Our 4A rectified 240V power cable can support up to 720 Watts (e.g. 1,500m of linear string lighting).

FestoonPro bulbs

Each one of our modern, low energy LED bulbs is suited to every harness in the FestoonPro system. Possibly our most popular bulb for long-term outdoor displays, our vintage glass designs feature dimmable 'filaments' and boast low power consumption too. They also look fantastic in bars, restaurants and weddings.

CONNECTING: Male and female connectors slot together until the rubber seal is reached. Tighten the exterior cap using the wings, ensuring the connection is weatherproof. Our 4A rectified 240V power cable can support up to 720 Watts (e.g. 1,500m of linear string lighting).

FestoonPro accessories

With 15 types of accessories available in this range, we've made sure you can create the most dynamic festoon displays possible, whilst saving you time and money on each installation.

Extensions are definitely the most popular accessory, allowing lead cables to meet exactly the length you need, or for adding unlit sections in the display. The specially designed 10-way ring connector is superb for creating striking canopies, and our exclusive E27 pendant range also gives you scope to revamp indoor light fittings, or existing festoon displays; making sure your display is always on trend.

CONNECTING: Male and female connectors slot together until the rubber seal is reached. Tighten the exterior cap using the wings, ensuring the connection is weatherproof. Our 4A rectified 240V power cable can support up to 720 Watts (e.g. 1,500m of linear string lighting).

Cut-to-length neon flex, 240V

AC118

AC116

AC117

The biggest and most exciting trend to hit the lighting world, every commercial display needs neon! In warm white, white, blue, green, red or pink, there are 120 LEDs per metre, meaning your display will definitely stand out from the crowd. Cut from 1 metre to 50 metres, choose whatever length you need to create a bright and vibrant installation. Super flexible, this neon flex light can be bent into any shape and, since it's IP65 rated, you can create any display anywhere!

Cut-to-length rope light, 240V

FL605

AC112

AC058

This cut-to-length rope light has so many uses and combines the highest quality with the brightest effect, making sure your display is definitely something to remember. Thanks to its robust but super flexible construction, you can bend and shape it to suit every application. Plus, it's IP65 rated, so you can rely on it to shine bright in every setting, whether indoor or out. Available with either blue, red, white, warm white, pink, green or multi-colour energy-efficient LEDs, this rope light can be cut to any length you need, from 1 metre to 100 metres.

Cut-to-length strip light, 240V

AC115

AC113

AC114

Featuring 60 SMD LEDs per metre, in a variety of colours including red, green, blue, white and pink, this cut to length strip light boasts a super bright 350 lumen output per metre. The flexible yet sturdy construction allows you to sculpt it around corners for a perfect fit! Popular for adding a splash of vibrant colour to parties, weddings, and Christmas displays, this strip light is perfect for permanent displays in bars and restaurants too. The IP65 rating also means it provides its year-round brightness either indoors or outdoors.

Alphabet candles

The easiest way to tailor decorative lighting to any event, our range of alphabet candles can be used to display the names or initials of special guests at birthdays and weddings, or to spell out any phrase you like. Battery-powered, these candles are made using real wax and are housed in glass holders.

BL089
1 flickering warm white LED, 9cm tall, vanilla scent, 2xAAA batteries required.

ARE YOU AN INSTALLER?

We regularly get asked if we can recommend reputable installers who we trust to fit our products, in both private and commercial settings. To make it easier, we created the dedicated 'Find a lighting installer' page - one central hub where our retail and business customers can locate the perfect installation company for their location and their project's requirements.

We're always on the lookout for new commercial lighting installation companies to add to our team of certified partners; if you fit the bill, just follow the instructions below to register.

Diffused/clear lens addressable LED with 16.8 million colors individually controlled

Wi-Fi Controller

Miniaturized system of chips for remote control

IOT ready

Compatible with smart home systems

business.festive-lights.com/twinkly

Looking for that amazing display piece that will wow onlookers day or night?

We have handmade sculptures in our exclusive collection!

Each design perfectly encapsulates its real life counterpart and is brought to life with thousands of LEDs and vibrant colour for unbeatable realism.

Powered by safe, low voltage transformers, these sculptures can be displayed indoors or outdoors, lending themselves to all types of display, especially within commercial and retail environments.

Although we carry a limited stock seasonally, we would urge customers to place orders with a delivery time of 4-5 months in mind. Factory orders carry a significant saving over sculptures purchased from UK stock.

Contact our business team for a copy of the brochure or download the e-brochure.
