# FestiveLights®

For business

2022/2023 Collection

Our ConnectPro® Outdoor LED String Lights have been awarded a Which? Best Buy, and are now officially a Which? endorsed product!

“ ...they are incredibly high quality. They sailed through all our durability tests ”

SKUs: MV001 / MV003 / MV032 / MV007

## Welcome to the Festive Lights for Business winter brochure, 2022/2023.

When it comes to decorative lighting, we're the best in the biz. We have the knowledge and expertise that only comes from having over 20 years' experience under your belt. So, whether you're after a tailor-made quote or bespoke product, you'll never have to settle for anything less than the best.

The lighting industry is ever evolving and advancing quickly, meaning we're constantly expanding and developing our range of products to keep ahead of the curve. We keep our 76,500sqft distribution centre packed to the rafters with everything your event could ever want or need, including our recent Which? endorsed ConnectPro Outdoor LED string lights.

“...they are incredibly high quality. They sailed through all our durability tests”

Wedding venue or hotel, corporate event or festival; there's no job too big or too small where we can't support you. And best of all, our worldwide and next day delivery options mean you're just the click of a button or a quick phone call away from making your celebration the must-see event of the season.

Our team is here to guide you, so please don't hesitate to get in touch to find out how we can help.

## Our journey so far.

Festive Lights is a family-run business born out of less conventional means. Founded following a manufacturing trip to Taiwan, we've come on leaps and bounds since receiving our first container full of lights in 1999.

From opening our service to trade orders in 2003, to the invention of the DRiBOX in 2008, we have worked hard to ensure that our customers wants and needs are met quickly and with care.

Now, 23 years on, our 76,600sqft distribution centre is packed with scalable packing stations and powered by a logical ERP (Enterprise Resource Planning) system to ensure that we continue to stay ahead of the competition.

Our staff has combined years of industry experience to ensure we tailor our service to meet our customers' expectations and our brand obligations. We pride ourselves on our ability to provide top-notch service with a trusted smile, whilst also offering a personal and friendly service. At the heart

of our brand is our ability to meet the demands of our customers, including our own market leading brands:

**Festive Lights** - The UK's leading online retailer of decorative lighting.

**Festive Lights for Business** - Business dedicated lighting specialist.

**Disklok** - World leading car security brand.

**DRiBOX** - Award winning weatherproof connection box 'Making Connections Simple'.

**MiRIDER** Market leading folding electric bike providing 'Smiles for Miles'.

**Twinkly** - A UK distributor of the smartest lighting brand on the planet.

Part of the FL Group

Our Wigan based team relish the challenge of delivering excellence day after day, from order to your door.

Mix and match products within the range  
String lights, festoons, icicles, rope light, neon flex, strip light, clusters, curtains, nets, motifs, garlands and figures.

## Superior quality lights, recommended by the professionals.

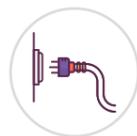

Offering reassuring performance for all commercial displays, this high quality connectable system uses durable rubber cabling and innovative bulb sealing technology.

With an IP65 rating and advanced connections, these lights are built to withstand changeable weather conditions, making them perfect for prolonged outdoor use.

We've taken extra special care of every detail with these lights, so you don't have to worry about anything, even down to the unique, wing-shaped connectors which make secure tightening effortless. The LEDs are glued into specially aligned polycarbonate caps, using epoxy resin, which ensures a reliable and consistent electrical connection and superior protection against moisture ingress.

We're very proud to announce that our ConnectPro outdoor LED string lights have been awarded a Which? Best Buy, and are now officially a Which? endorsed product!

## ConnectPro® Icicle Lights

ConnectPro® LED icicle lights are extremely robust and designed for commercial use. Typically used for following the contours of buildings and structures, but also for suspending above walkways.

Being able to connect up to 315m is particularly convenient in town centres, and our flash bulb models add an extra magical touch.

## ConnectPro® Neon Flex

The biggest and most exciting trend to hit the lighting world, every commercial display needs neon! In warm white, white, blue, green, red or pink, there are 120 LEDs per metre, meaning your display will definitely stand out from the crowd. Cut from 1 metre to 50 metres, choose whatever length you need to create a bright and vibrant installation. Super flexible, this neon flex light can be bent into any shape and, since it's IP65 rated, you can create any display anywhere!

## ConnectPro® Strip Light

NEW

Featuring 60 SMD LEDs per metre, in a variety of colours including red, green, blue, white, warm white and pink, this cut to length strip light boasts a super bright 350 lumen output per metre. The flexible yet sturdy construction allows you to sculpt it around corners for a perfect fit! Popular for adding a splash of vibrant colour to parties, weddings, and Christmas displays, this strip light is perfect for permanent displays in bars and restaurants too. The IP65 rating also means it provides its year-round brightness either indoors or outdoors.

## ConnectPro® Colour Select Lights

NEW

Brand new for this year, our colour-changing lights add an extra dimension to your display. With 8 different colours, including red, green, blue, white, yellow, sea blue, purple and multi-colour, these lights make every installation stand out from the crowd.

There's a handy 8 hour timer, for effortless lighting and even a remote control with a 20m range, so you can stay in control of your lights at the touch of a button. The lights feature 4 eye-catching functions, static, flash, chasing and wave and there's a speed setting too, so you can choose whether to have your lights flashing fast or slow.

## ConnectPro® Accessories

With 14 different accessories in the ConnectPro® range, these are the lifeblood of the whole system. They allow the free flow of installations, meaning you've got the flexibility to create any type and size of display you want. Including extension cables in 2m, 5m and 10m options, along with ring and curtain connectors, and 2 or 3 way connectors, the only limit to your display is your imagination!

## Connectable lights with a difference – you pick the power!

The most versatile range of connectable lights we've ever stocked, the ConnectGo® system gives you ultimate flexibility for your lighting display.

At the cutting edge of low voltage, multi-power-source lighting, this system offers you excellent performance, safety and versatility. Including all of our bestselling lighting products, like string lights, festoons and curtain lights, everything in this range can be powered by either solar, battery, or 31V mains power.

feature our professionally moulded connections, which are designed with shaped wings for a reassuringly strong connection.

There are six power supplies to choose from, for whatever your display needs, so you can power from 50 to 4,000 LEDs (400 metres), all with multifunction capability.

The high quality PVC cable ensures durability in all weather and is backed by our market leading, 2 year anti-rust guarantee. All the products in this revolutionary range

## ConnectGo® Icicle Lights

With up to 40m coverage from one plug and multi-function capability, these clear cable icicles are ideally suited to medium scale projects. With their safe operating voltage, dressing the roof line of commercial properties or temporary structures is their ultimate use.

However, they are also a useful option where plug sockets are not accessible, by using our battery power packs, which include convenient 24hr timer controls.

### Power Options

## ConnectGo® Motif Lights

Rope light motifs are very versatile and can integrate into the ConnectGo® system at any point. Stars or snowflakes can mix together with strings, icicles and garlands to create a medium scale Christmas project, such as a grotto or Christmas market.

With their white metal framework, they are easily attached to structures, branches, catenary wires and commercial Christmas trees.

### Power Options

- CG004 AA battery box = 200 LEDs
- CG005 D battery box = 400 LEDs
- CG006 solar panel = 200 LEDs

## ConnectGo® Figures

Christmas figures transform any scene into the perfect winter wonderland and now you can add even more flexibility to your display with our brand new ConnectGo® figures. With the benefit of being multi-power source, these festive figures can be adapted to suit every display, unrestricted by power outlets since you can choose between battery and mains power.

Their safe operating voltage makes them ideal for displays where families and young children may be nearby. Make use of the accessories and alternative power supplies to create a glorious grotto with eye-catching multifunction.

## ConnectGo® Accessories

Adding even more flexibility to the ConnectGo® range, the six different power options mean your lights can be installed virtually anywhere. Using mains power, you can run up to 600 LEDs (Small), 1,600 LEDs (Medium), or 4,000 LEDs (Large), all boasting 8-function controllers and an in-built memory chip.

If access to mains power is a problem, our battery power pack options are here to save the day; power up to 200 LEDs from the Small or up to 400 LEDs from the Large. Offering the same brightness as mains power, you still get the multifunction and memory capabilities.

We've also got the option of a solar panel, powering a maximum of 200 LEDs and featuring both static and twinkle functions, and our extensive accessory range.

### Power Options

- CG004 AA battery box = 200 LEDs
- CG005 D battery box = 400 LEDs
- CG006 solar panel = 200 LEDs
- CG052 small transformer = 600 LEDs
- CG008 med transformer = 1,600 LEDs
- CG025 large transformer = 4,000 LEDs (1,000 LEDs from each port)

Our FestoonPro® range is the ultimate bespoke festoon lighting system. Connect up to 3,000m of quality rubber cable belts, in either black or white, choose and replace bulbs individually from our huge range of festoon bulbs, and create show-stopping displays.

Here's how to do it:

1 Select a belt and add to your basket (be sure to add the power cable too).

2 Choose and add bulbs to your basket that fit your belt e.g. E27 or B22.

3 (Optional) Add any additional accessories e.g. extension leads.

## Flexible, professional, commercial quality festoon lighting.

The most popular choice for year round event lighting, festoons create show-stopping statement displays in every venue.

We designed this universal system to extend up to an impressive 3,000 metres, making sure it adapts to any occasion.

With rubber cable and a robust socket design, the belt is suitable for both temporary and permanent displays. The unique winged connections mean that extending the system is effortless but, more importantly, make a weathertight seal you can rely on. The belt also features 30cm, 50cm or 100cm socket spacing, and a rounded cable to be more aesthetically pleasing!

We offer a comprehensive range of outdoor bulbs too, with either B22 or E27 fittings. Our range has everything from modern LED G45s with opaque (0.5W) or transparent (1.2W) casings, to the latest vintage LED 'filaments' (4W) with dimmable capability. We also have our traditional shape A60 bulbs, which are available in the timeless white and warm white LED colours, perfect for any event.

A full range of accessories integrates seamlessly to make installations more dynamic and to make your life so much easier. The ring connector is definitely the most popular for creating centrepieces and suspended canopies.

### \*Maximum connection guidance:

Based on 1,500W maximum  
30cm socket spacing:

When using 0.5W bulbs = 3,000 bulbs (1,000m)  
When using 1.2W bulbs = 1,250 bulbs (420m)  
When using 1.5W bulbs = 1,000 bulbs (330m)  
When using 2W bulbs = 750 bulbs (250m)  
When using 4W bulbs = 375 bulbs (125m)  
When using 8W bulbs = 180 bulbs (60m)

### Maximum connection guidance:

Based on 1,500W maximum  
50cm socket spacing:

When using 0.5W bulbs = 3,000 bulbs (1,500m)  
When using 1.2W bulbs = 1,250 bulbs (620m)  
When using 1.5W bulbs = 1,000 bulbs (500m)  
When using 2W bulbs = 750 bulbs (360m)  
When using 4W bulbs = 375 bulbs (180m)  
When using 8W bulbs = 180 bulbs (90m)

### Maximum connection guidance:

Based on 1,500W maximum  
100cm socket spacing:

When using 0.5W bulbs = 1,500 bulbs (3,000m)  
When using 1.2W bulbs = 1,250 bulbs (1,250m)  
When using 1.5W bulbs = 1,000 bulbs (1,000m)  
When using 2W bulbs = 750 bulbs (750m)  
When using 4W bulbs = 375 bulbs (360m)  
When using 8W bulbs = 180 bulbs (180m)

### Connecting

Male and female connectors slot together until the rubber seal is reached. Tighten the exterior cap using the wings, ensuring the connection is weatherproof. Our 7A 240V power cable can support up to 1,500 Watts (e.g. 3,000m of linear festoon lighting). The system meets all EU safety standards and RoHS requirements.

### Lampholder

Our lampholders have been specifically designed to meet IP55 weatherproof standard and feature a durable bulb seal for guaranteed performance all year round. We have incorporated a pair of convenient fixing holes into the lamp which allow permanent or temporary fixing, either onto the side of a soffit or attached to a suspended cable.

### FestoonPro® system specification

<b>POWER:</b> 240V	<b>MAX SYSTEM WATTAGE:</b> 1,500W LED or 'Filament'	<b>LED SPEC:</b> E27 (screw) or B22 (bayonet)	<b>SOCKET SPACING:</b> 30cm / 50cm / 100cm	<b>RUBBER CABLE TYPE:</b> Power lead 2 x 1.5mm <sup>2</sup> (HO7RN-F)
-----------------------	---	---	---	---

### Installation guidance:

If suspending without support cable: Max 20m  
If suspending with support cable (every 1m): Max. 150 sets (3,000m)

## FestoonPro® Belts

With near unlimited uses, our professional festoon belt is most often displayed suspended, such as between lamp posts or fixed directly to buildings - typically to soffits or fascias. Festoons are really popular for dressing town centres, public spaces and large commercial trees, but they're also the go-to event lighting for weddings, festivals and theme parks.

FestoonPro™ E27 belt

E27 bulb and lamp socket

If you already have the belt, our range of LED bulbs can be used to quickly personalise and update your display.

E27 is screw fitting. B22 is bayonet fitting.

## FestoonPro® Dimmable Bulbs

All of our modern LED bulbs are suited to every belt in the FestoonPro® system. Possibly our most popular bulb for long-term outdoor displays, our vintage glass designs feature dimmable 'filament effect LEDs' and boast low power consumption too. They also look fantastic in bars, restaurants and at events.

## FestoonPro® Accessories

With all types of accessories available in this range, we've made sure you can create the most dynamic festoon displays possible, whilst saving you time and money on each installation.

Extensions are definitely the most popular accessory, allowing lead cables to meet exactly the length you need, or for adding unlit sections in the display. The specially designed 10-way ring connector is superb for creating striking canopies, and our exclusive E27 pendant range also gives you scope to revamp indoor or outdoor light fittings, or existing festoon displays; making sure your display is always on trend.

## Commercial Christmas Lights – made your way

Despite our extensive range of “off the shelf” lighting products, we understand you may not see the perfect lighting that delivers your vision for your event but we are here to help!

Do you ever need a specific colour we don't stock?  
Do you need a specific length for your project?  
Do you need to make a bulk purchase?

In order to keep ahead of the curve, we have a specialist team to support you in creating specific orders that meet your requirements. Whether it's specific colours, lengths or sizes – with our range of ConnectPro®, ConnectGo® and FestoonPro® systems - no job is too big and we thrive on the challenging requests!

Whether your project is town or city based, decorating a shopping centre, an attraction or catering for a one-off event, we can realise it together. We will work alongside you to understand your needs and once you are happy, we can manufacture your lighting request.

Contact us before 31st March 2023 to discuss your specific lighting needs in order to receive before the Christmas season.

Our Commercial Lights are for all events, every celebration and each season - we can deal with your requests throughout the year for all occasions.

## Twinkly – Smart lighting for resellers.

Festive Lights are proud to be the UK distributor of Twinkly – the very best in smart Christmas lighting.

Previously featured in Mashable, Wired, Forbes and the New York Times, Twinkly is the most advanced product for lighting decorations. Twinkly smart lighting has revolutionised the decorative lighting industry by offering unparalleled customisation at just the click of a button.

It combines addressable LEDs, a WiFi and Bluetooth controller and most significantly, a state-of-the-art smartphone app allowing you to customise your display with ease. The app gives you the power to animate and change the colour and design of your Christmas tree in an instant, creating stunning visual effects previously considered impossible for domestic displays.

## Interested in selling Twinkly in 2023?

Festive Lights are proud to distribute Twinkly in the UK. We've stocked Twinkly products for years and feel uniquely qualified to guide and advise you.

If you're interested in stocking Twinkly at your store, please get in touch today by calling our Twinkly division directly on **01257 228288**.

01257 228288

twinkly@festive-lights.com

## Enter the Twinkly world

As Twinkly continues to thrive, its wide range of app-controlled lights have continued to expand in order to keep up with the growing demand.

Its range of strings, clusters, icicles, festoons, wreaths, garlands, and pre-lit trees has now been joined by lines (strip lights), (neon effect) flex and squares – all controlled via your smartphone.

The app, available on both iOS and Android, seamlessly controls your whole Twinkly display; syncing different light sets together using the hanging group function. Map each individual LED and play with the dozens of magical effects to set your tree a light. You can even set the colour, pattern and effects of your lights to music! Create the perfect ambiance and atmosphere with the magic of Christmas at your fingertips.

### Map and manage lights from the palm of your hand!

Thanks to the ethernet and WiFi connectivity, Project Managers can control single or multiple elements, syncing them together with ease. All of our controllers communicate with each other and the Twinkly app, allowing you to map and manage up to 100,000 lights from your palm.

Create your ideal scene, set your dream atmosphere, promote key events and cultural celebrations – all thanks to the cloud portal.

# Cone trees

## The ultimate Christmas centrepiece. Reinvented by Twinkly Pro.

Unlimited digital effects are achievable with hundreds of preset animations, and the tree can be further enhanced with custom animations. The high density of LEDs allows text and graphics to be displayed to promote events, business logos and corporate relationships.

Our trees can be supplied with a base for elevation and an optional star topper. Tree installation height ranges from 4 metres all the way up to a staggering 10 metres tall!

PRODUCT	TOTAL TREE HEIGHT (m)	TOTAL LIT HEIGHT (m)	BULBS	WEIGHT (kg)	DIAMETER (m)	POWER (w)
4m tree no base	4	4	4500	90	1.5	450
5m tree inc. 1m base	5	4	4500	100	1.6	450
6m tree no base	6	6	9000	125	2.15	900
7m tree inc. 1m base	7	6	9000	150	2.25	900
8m tree inc. 2m base	8	6	9000	170	2.25	900
10m tree inc. 2m base	10	8	15000	550	2.85	1500
50cm Twinkly star topper	-	0.5	500	3	0.5	50

Kit includes: 4G router, network cables, controllers, strings, assembly fixings

2m high octagonal base for trees 6m+

1m high cylindrical base for 4m and 6m trees

50cm star topper dressed in Twinkly lights

Our trees can be supplied with a box for elevation and an optional star topper. Tree installation height ranges from 4 metres all the way up to a staggering 10 metres tall!

# Pre-Lit Garland & Wreaths

Twinkly Pro turns a Christmas classic into a modern masterpiece.

We use professional garlands to tie in every pixel for a true 3D decoration. Garlands can be used in conjunction with giant wreaths and stars to invigorate a high street, whilst archways can really focus footfall at ground level.

Multiple displays can be coordinated, in sync or flow, to create magical effects along an entire display.

Available either:

- with Twinkly Pro Plus controllers
- with Twinkly Pro Ethernet controller
- without any controller

PRODUCT	BULBS	WIDTH (m)	HEIGHT (m)
Pre-lit Garland 9ft Luxury	750	2.7	2.7
Pre-lit Garland 4ft Wreath	500	1.2	1.2
Pre-lit Garland Star	500	1.2	1.2
Pre-lit Garland 8ft Archway	1500	0.3	2.5

### Garland Archway

- 2.5 metres height
- 1000 LEDs
- 30cm garland depth

Pre-lit wreath and garland hung on cross-street catenary

### Wreath & Garland

- 500 LEDs
- 20cm garland depth

## Column Mounts

A classic street decoration combined with modern technology.

Twinkly Pro allows full control across every lamp post, bringing your street a whole new dimension. Perfect for managing different events throughout the festive season.

Twinkly effects can be combined into a playlist to change the theme of your street. Displays can be controlled locally or remotely.

Available either:

- in rectangle or triangle shape
- with Twinkly Pro Plus controllers
- with Twinkly Pro Ethernet controller
- without any controller

PRODUCT	BULBS	WIDTH (m)	HEIGHT (m)
Column Motif 2 x 0.6m rectangle	500	0.6	2
Column Motif 2 x 0.6m triangle	250	0.6	2
Column Motif 2.5 x 0.8m rectangle	750	0.8	2.5
Column Motif 2.5 x 0.8m triangle	500	0.8	2.5

## Wall Displays

Add an instant wow factor to your space.

These lightweight textured panels filled with Twinkly Pro LEDs can create an exciting effect for an audience. The backdrops can be installed permanently or temporarily for events in the hospitality sector.

Textures and effects are combined to enhance the mood of your room, by adding ambience to immerse your audience. Choose from white flowers or green foliage for a modern look. We also offer a diffused perspex finish for a digital appearance. These panels can be arranged in a modular installation to cover large or small feature walls or ceilings.

PRODUCT	BULBS	WIDTH (m)	HEIGHT (m)
White Flower Wall 2 x 1.8m 500 LEDs	500	2	1.8
Green Foliage Wall 2 x 1.8m 500 LEDs	500	2	1.8
Perspex Wall 1.2 x 1.2m 500 LEDs	500	1.2	1.2

NB: Textures may vary slightly from imagery

Southern Showroom with Dreamwave

## Your Invitation - Our showrooms are open!

Witness first-hand our industry leading lighting products at the Festive Lights for Business Showrooms. Experience in-person our unrivalled ConnectPro®, ConnectGo® and FestoonPro® connectable lighting systems, as well as the magic of Twinkly Pro.

We have over 25 years of industry experience and our passionate business team will be more than happy to talk you through each of our systems, allow you to get hands-on with them, and ultimately ensure that you are empowered with the knowledge to make the best decision when it comes to your lighting installation.

The showrooms showcase the versatility of our commercial lighting ranges and their numerous applications. There are also areas dedicated to demonstrating the latest technology from Twinkly and TwinklyPro. This revolutionary system alongside our commercial products and accessories need to be seen to be truly appreciated.

Our showrooms are open all-year round, so make an appointment today to see how we can help you with your business' lighting needs.

You can make an appointment by phone or alternatively via the online form accessible at the website address below.

## MiRIDER ONE GB3

Introducing the MiRIDER One GB3, our very own take on a geared bike.

In keeping with our philosophy of simplicity and rider experience, we scoured the world for complimentary parts to fulfil our objectives.

Rather than take the easy, traditional option of moving the hub motor to the front and hanging a derailleur off the back, we wanted to be smarter than that. We wanted to retain the balance and traction a rear wheel hub offers whilst avoiding a bulky and dirty gear set.

Partnering with a specialist supplier in Europe, we have a seamless three-speed, grip shift gearbox, elegantly designed into the crank arm, offering maximum functionality for minimal fuss.

To enhance the unique gear system, we've added a custom belt drive system, which provides a quiet and smooth ride without the oil!

The trio of ratios have been devised to offer a perfect selection; 1st for climbing or riding without assistance, 2nd for typical riding and 3rd for cruising or riding above the 15.5mph cut out.
