Features Catalogue 2023

twinkly™ **PRO**

power at your fingertips

All of our Twinkly Pro feature products are designed and assembled in our UK production facility. Our production team are dedicated to creating amazing dynamic products for commercial display.

We look forward to being part of your project.

Projects

TWINKLY PRO PROJECT TEAM

Cloud Control... managing a whole installation is just a few clicks away.

Twinkly Pro brings the magic of Twinkly to professionals. Get ready to create stunning light decorations, saving costs and time. You can manage all of your lighting displays remotely with the help of Twinkly Cloud Portal. You can also send custom creations from the comfort of your office, and schedule the entire project to meet clients' needs.

8m Twinkly HD Tree and Cross Street Lights - Bradford BID

Cone Trees

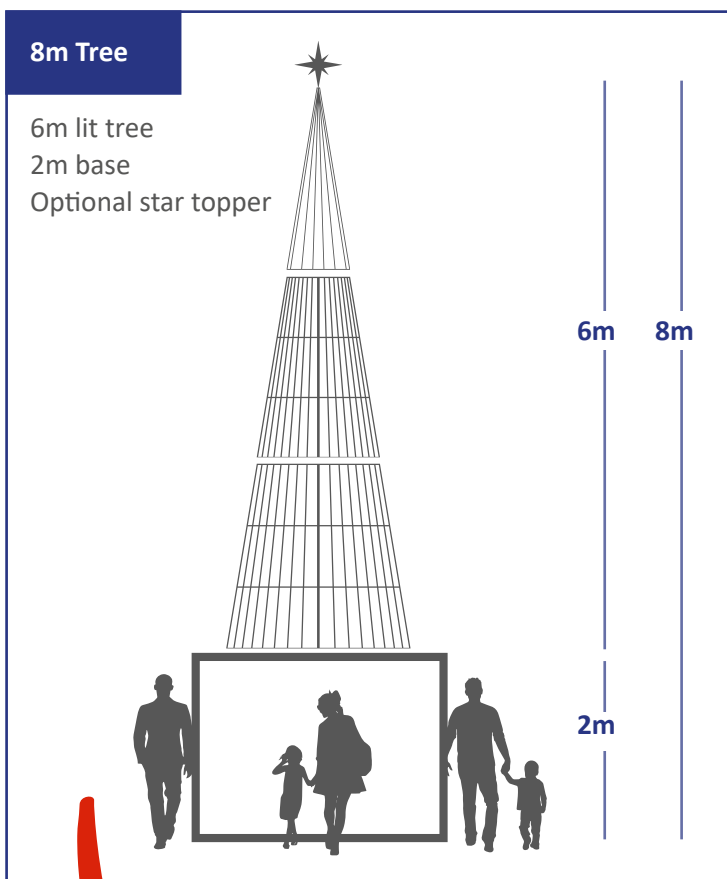

The ultimate Christmas centrepiece.
Reinvented by Twinkly Pro.

Unlimited digital effects are achievable with hundreds of preset animations, and the tree can be further enhanced with custom animations. The high density of LEDs allows text and graphics to be displayed to promote events, business logos and corporate relationships.

Our trees are supplied in pre-wrapped sections with weatherproof connections ready to assemble.

There are a host of options to tailor a tree for clients exacting look and control.

We offer low and high LEDs densities, lighted star toppers, elevated or covered 1m and 2m customised bases with local or cloud control.

Cloud Version Remote control via online portal	BULBS	HEIGHT	WEIGHT (KG)	DIAMETER (M)	POWER (W)
4m Tree high-density ETH	4 500	4m	135	1.32	450
4m Tree low-density ETH	1 500	4m	117	1.32	150
4m Tree Festoon ETH	240	4m	126	1.32	132
6m Tree high-density ETH	9 000	6m	275	1.98	900
6m Tree low-density ETH	3 000	6m	234	1.98	300
6m Tree Festoon ETH	480	6m	292	1.98	264
8m Tree high-density ETH	15 000	8m	~420	2.7	1 500
8m Tree low-density ETH	5 000	8m	~320	2.7	500

WiFi Version No cloud capabilities, local iOS device only	BULBS	HEIGHT	WEIGHT (KG)	DIAMETER (M)	POWER (W)
4m Tree high-density WiFi	4 500	4m	135	1.32	450
4m Tree low-density WiFi	1 500	4m	117	1.32	150
4m Tree Festoon WiFi	240	4m	126	1.32	132
6m Tree high-density WiFi	9 000	6m	275	1.98	900
6m Tree low-density WiFi	3 000	6m	231	1.98	300
6m Tree Festoon WiFi	480	6m	292	1.98	264
8m Tree low-density WiFi	5 000	8m	~305	2.7	500

All trees include: 4G router, network cables, controllers, strings, assembly fixings, tree topper of choice, user manual. Does not include ballast or anchoring/tethering/tie down fixings.

Optional:

- Circular 1m high steel & composite base frame for 4m and 6m trees only – lifts the tree by 1m
- Hexagonal 2m high steel & composite decorative barrier for 6m, 8m and 10m trees – lifts the tree by 2m on tree frame with no garland
- For a base upgrade, we offer a standard graphics package or you can submit your own design at no extra charge
- Twinkly PRO Aluminium star topper – colour or pattern can be independent to the tree
- Warm white Tape light Aluminium star topper – fixed colour

10m Maypole Tree - Media City UK

Maypole Tree

Lightweight aluminium maypole tree, designed and engineered specifically for Twinkly Pro lighting. Our maypole tree gives a true 3D lightshow thanks to its transparency, and its effects can be fully customised.

Maypole TREE

Kit includes:

- 1 4G Router
- 2 Switches
- 10 Controllers
- 60 Strings

PRODUCT	BULBS	HEIGHT (M)	DIAMETER (M)	POWER (W)
Twinkly Pro Maypole tree	15000	10	4.2	1500

Maypole tree includes: 4G router, network cables, controllers, strings, wooden base, assembly fixings, cable ties, user manual. Does not include ballast or anchoring/tethering/tie down fixings.

Wall Displays

Add an instant wow factor to your space.

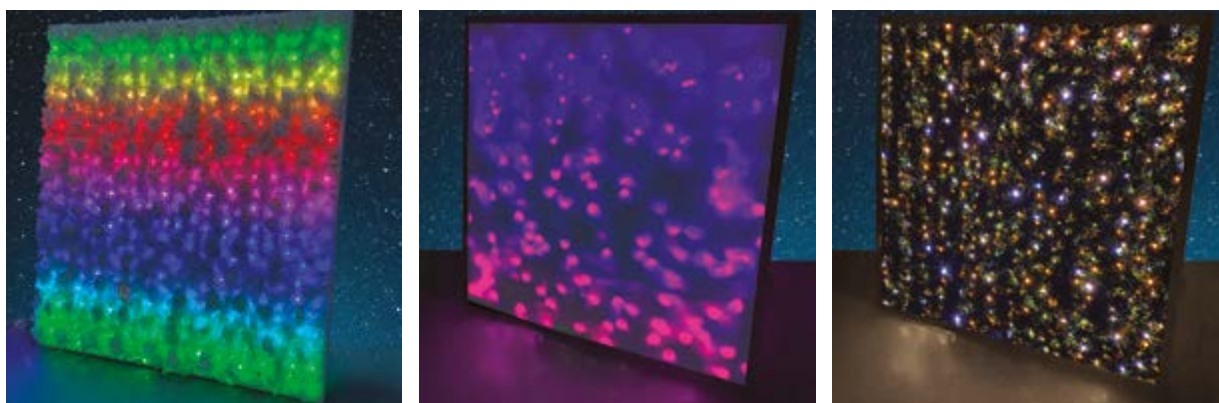

These lightweight textured panels filled with Twinkly Pro LEDs can create an exciting effect for an audience. The backdrops can be installed permanently or temporarily for events in the hospitality sector.

Textures and effects are combined to enhance the mood of your room, by adding ambience to immerse your audience.

Choose from white flowers or green foliage infill for a modern look or simply just the lights. We also offer a diffused perspex cover for a digital appearance.

These panels can be arranged in a modular installation to cover large or small feature walls or ceilings.

Panels are pre-lit and supplied ready to install with a WiFi controller. If multiple panels are being used in one scene, it is possible to power more panels from one power/controller source depending whether WiFi or Ethernet control is desired. Please contact us to discuss and price the kit accordingly.

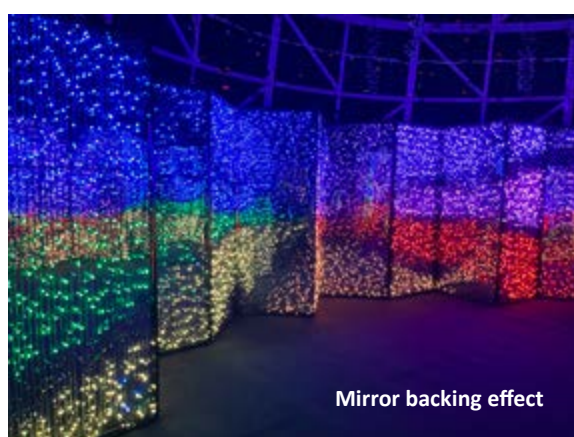

Supply options with:

- White foliage, or greenery texture
- Perspex cover or bare light strings
- Mirror backing (please contact us for a quotation)
- Twinkly Pro Plus WiFi controllers (2 or 4 port)
- Twinkly Pro Ethernet controller
- Without any controller
- Custom size and light amounts (please contact us to discuss and quote)

The backdrops can be permanent or temporary installations for retail displays or commercial events. Choose from rectangular or square ratios. They can be arranged in a modular installation to cover large or small feature walls or ceilings.

Our frames are made from lightweight box section aluminium, powder coated in black and are suitable for wall and ceiling mounting. If being suspended, a suitable structure should be considered before purchase.

PRODUCT	BULBS	WIDTH (M)	HEIGHT (M)
4 port Frame	1000	1.8	2
2 port Frame	500	0.9	2
1 port Frame	250	0.9	1

Mirror backing effect

PRODUCT	BULBS	WIDTH (M)	HEIGHT (M)	LENGTH (M)
Light Tunnel High Density	3000	2	2.5	3
Light Tunnel Low Density	2000	2	2.5	3

3D Light Tunnel

A versatile 3d feature adding a mesmerising focal point.

Everyone loves a light tunnel so we have designed our own perfectly formed system. We have worked hard on a cost-effective package, whilst being easy to transport and install with just 4 pannels and simple nut and bolt kit.

Built in 3m sections, the frame is pre-fabricated to be modular, which offers great scope for small or longer displays indoor or out with extravagant effects.

Archway

- 2.1m wide, 2.5m high, 3.0m long
- Choice of 8 or 12 strings
- Density of 2000 or 3000 LEDs

All tunnels include: 4G router, controllers, strings, assembly fixings, user manual. Does not include ballast or anchoring/tethering/tie down fixings.

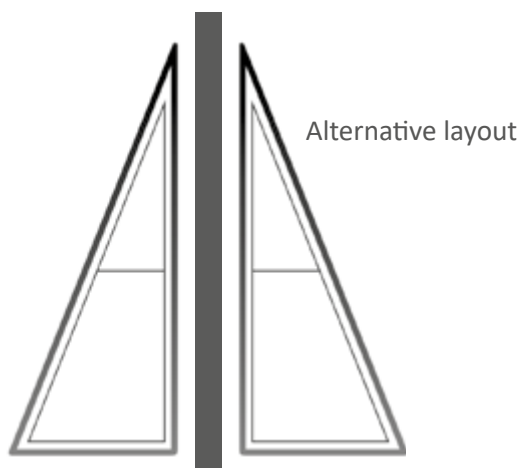

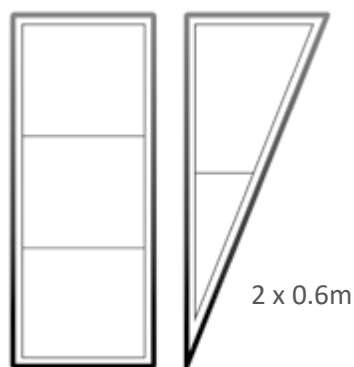

Column Mounts

A classic street decoration combined with modern technology.

Twinkly Pro allows full control across every lamp post, bringing your street a whole new dimension. Perfect for managing different events throughout the festive season.

Column Motif Sizes

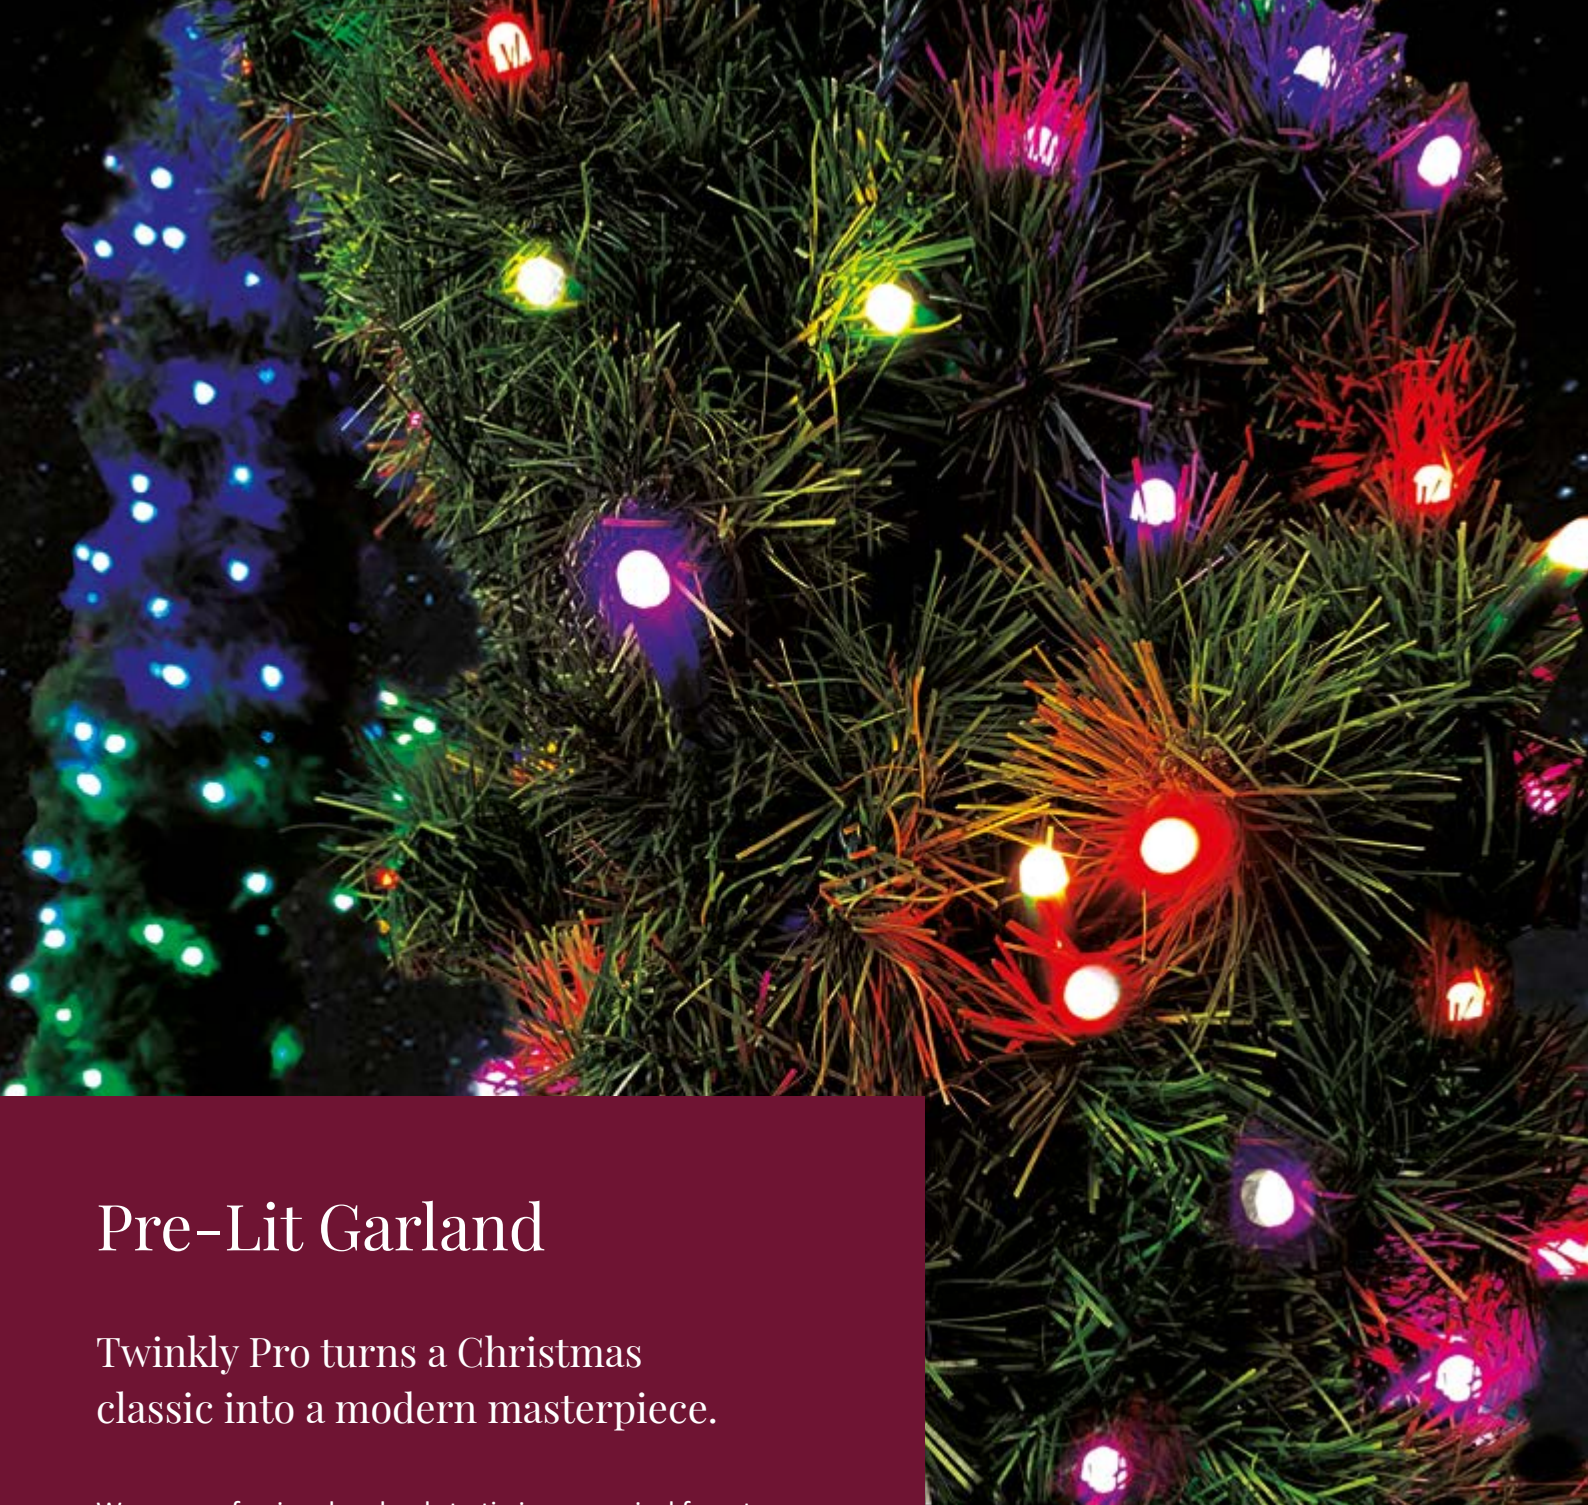

Twinkly effects can be combined into a playlist to change the theme of your street. Displays can be controlled locally or remotely.

All products in this range are supplied ready to install with a WiFi controller. If multiple items are being used in one scene, it is possible to power more objects from one power/controller source depending whether WiFi or Ethernet control is desired. Please contact us to discuss and price the kit accordingly.

PRODUCT	BULBS	WIDTH (M)	HEIGHT (M)
Column Motif Rectangle	500	0.6	2
Column Motif Double Rectangle	1000	1.2	2
Column Motif Triangle Shape	250	0.6	2
Column Motif Tree Shape	500	1.2	2

Supply options with:

- Twinkly Pro Plus WiFi controllers (2 or 4 port)
- Twinkly Pro Ethernet controller
- Without any controller

Pre-Lit Garland

Twinkly Pro turns a Christmas classic into a modern masterpiece.

We use professional garlands to tie in every pixel for a true 3D decoration. Garlands can be used in conjunction with giant wreaths and stars to invigorate a high street, whilst archways can really focus footfall at ground level.

Multiple displays can be coordinated, in sync or flow, to create magical effects along an entire display.

All products in this range are supplied ready to install with a WiFi controller. If multiple items are being used in one scene, it is possible to power more objects from one power/controller source depending whether WiFi or Ethernet control is desired.

Supply options with:

- Twinkly Pro Plus WiFi controllers (2 or 4 port)
- Twinkly Pro Ethernet controller
- Without any controller

Garland Archway

- 2.5 metres height
- 1000 LEDs
- 30cm garland depth

Garland

- 2.7 metres long
- 250 LEDs
- 30cm garland depth
